TEST

RESULTS

Culture And Sensitivity For Bacteria

Specimen	Urine
Gram Stain	No Microorganisms are seen
Organism	Not Applicable
Colony Count	Not Applicable
Note	Sensitivity reporting has not been done as there was no growth of any bacteria.

Note:

- E-coli and Pseudomonas species have a typical character of changing their drug sensitivity pattern for their survival through their Plasmids. Therefore a repeat in culture and sensitivity after one week is warranted.
- In case of Growth of Candida on a bacterial medium,colony count should be considered / Expected to be higher on fungal medium.
